Annexure I

Sr.	Item	Specifications						
No	Name							
1	Bluehill	BLUEHILL SOFTWARE FOR INSTRON 4466 H1855 1 1 2410-410						
	Software	Bluehill 2 Materials Testing Software for Instron 4200, 4300, 4400						
		systems. For Windows [®] 7 (32 bit) and XP (service pack 3) operating systems						
		Bluehill Materials Testing Software features a Window's based graphical user						
		interface designed for ease of use, power, and flexibility. The basic software						
		provides a platform, which serves not only as basic materials measurement,						
		test control, and report generation system, but also acts as the focal point						
		of the software architecture to which other Bluehill modules are connected.						
		The software provides up to four real time numerical displays (digital or						

analog) for test data as well as facilities for generating graphs and tables of processed test results. The use of simple memorable icons to represent system functions and features ensure rapid learning and make the system ideal for both in frequent and experienced users. The basic software provides the following functionality and features: - Set-up and configuration of the display screen and - control panel- Set-up of limits and gain controls -Security with user passwords - Automatic calibration and balancing of transducers - User calculation creator for defining custom calculations -Prompted Test Sequence Creator - Live runtime test plots with automatic scaling and - zoom-in/out- Report generation with basic report templates included - Monitoring of system and system service histories - On-line help and reference guide - API (Advanced Programming Interface) for data access or automation - Automatic grip control (frame dependent) - Saving and retrieval of test methods and data - Example test methods included for easy test creation Requires the purchase of at least one of the following test applications: - Tension Test - Compression Test - Flexure Test - Peel, Tear and Friction Test - Metals Test - Complete Test Suite 21 2410-410A1

English language option. 3 1 2410-410B1 For Systems with Series IX Software. 4 1 2410-410Z1 Complete Bluehill 2 Software Suite. Includes Bluehill Software with: - Tension, Compression, Flexure, Peel/Tear/Friction, and Metals Applications Packages - TestProfiler - Reports and Graphs Pack. Requires basic 2410-410 platform. 5 1 3781-625

On Site Integration of a customer supplied computer Instron strongly recommends using Dell models approved for use with Instron equipment. Computers must comply with the minimum specification approved by Instron. Customer-supplied computers must feature two Ethernet ports (1X integrated and 1 x PCI-E) The PCI-E Ethernet card must be fitted into the PC prior to the arrival of the installation engineer. Instron cannot guarantee the compatibility of computers not approved for use with Instron Systems. NOTE: Installation does not include connection to any peripheral device or BlueHill Extended System and Software networks 6 1450-055 1 Introduction This introduction includes Test Method development and training for up to 3 operators on the customers supplied equipment and to pre-defined customer methods. Included in this item are: - Review user's application needs - Creation, if necessary, and the running of up to 5 user test methods - If required, conversion of up to 10 Instron Series IX test methods OR all Instron Merlin Test Methods - Set-up of Sample and Specimen Parameters - Set-up of Test Control Parameters - Results

Calculations setup for applications - Review and set-up of report templates -Testing customer supplied specimens to validate/verify developed test methods - Instruction on simple modifications to Test Methods and Report Templates (if applicable) Note: 1. The above service is expected to take a minimum of 4 hours to a maximum of 8 hours 2. If sold with a machine order, travel time is included in installation. 3. If sold OTC, local zone charges will apply. 7 1 2490-849 National Instruments' PCI-GPIB Board With 4m GPIB Cable and Drivers For Windows 7 (32bit) and XP Professional Edition. 8 1 A474-815 eprom for 4400 Series 9 1 1400-853 One day (8 hours) of installation or training on hardware / Software Includes in depth instruction on test method development, results and report generation. This training is to be performed in conjunction with the installation of a test system or testing software.
